Spanopoulos Group company profile

Spanopoulos group provides the marine sector with a variety of expert services, from commercial shipbuilding, yacht repair and marine engineering & construction through to towage and wreck removal.

We combine expertise with the latest technology and equipment, and have become specialists in yacht refits, repairs and new building in the Mediterranean and Middle East.

Much of our work is carried out at our Commercial Shipyard and Superyacht Refit Yard, both located in Piraeus, Greece.

One group!

Our mission is to provide our customers with the best quality services.

Our vision is to become leaders in yacht refit & repairs in the Mediterranean and Middle East.

With Spanopoulos you benefit from

- Safety & quality
- Vast marine professional experience
- The latest technology & equipment
- Highly qualified technicians and designers
- Highly focused customer orientation
- In house technical teams
- Efficiency and regards to performance timelines
- Liability insurance cover

Capacity & equipment

Our Shipyard for Megayachts in **Perama, Piraeus**, covers more than **17.000m²** and is able to accommodate more than 30 yachts from 25m up to 65m. With **2500m²** of office, workshop, apartments, a café, gym, and sauna including a roof garden, it also has plenty of room for crews and visitors.

The Perama Shipyard operates a **820-travel lift** – the modest modern in the Eastern Mediterranean which includes a **300-ton mobile boat trolley to transport vessels within the yard**. The premises also include a water dock, which allows for instant and safe access including a **keel pit**, built to international standards for specialized keel works.

The highly, qualified staff ensures that work in the yard is completed quickly & **safely and to very high standards**.

Our Shipyard for Commercial Vessels located at **Salamis, Greece**, an island adjacent to **Piraeus** is able to accommodate vessels from 35m to 100m, and space to moor 25 boats.

The Salamis Shipyard is equipped with a **100m by 29m floating dock with a lifting capacity 4.500 tons**, as well as **2.000-ton SPMT trailers**, which can support vessels to be transferred to land. In addition, the shipyard has a **100m semi-submersible pontoon and 70m hangar** to hold a wide variety of vessels during newbuilding or refitting works.

At the shipyard works are carried out under the supervision of our naval architects, mechanical engineers and project managers.

Technical services

Our services have helped make us the shipyard of choice for many of the world's leading yacht companies and owners.

Our in-house services include:

- Mechanics
- Electronics
- Electrics
- Hydraulics
- Yacht renovation and transformation
- Interior design
- Interior and exterior painting
- Engineering
- Carpentry & joinery
- Metal work
- Welding & fabrication
- Refrigeration & air conditioning
- GRP & fiberglass repairs
- Structural changes & extensions

Our technical teams are certified to the highest standards – including **ISO 9001**, **ISO 14001**, **OHSAS 18001** and **ISPS** – and work with the highest liability insurance.

We also offer customers additional services, such as **towage assistance** and **underwater services**.

“Our tug boats are available 24/7 for any kind of support,”

Training & development

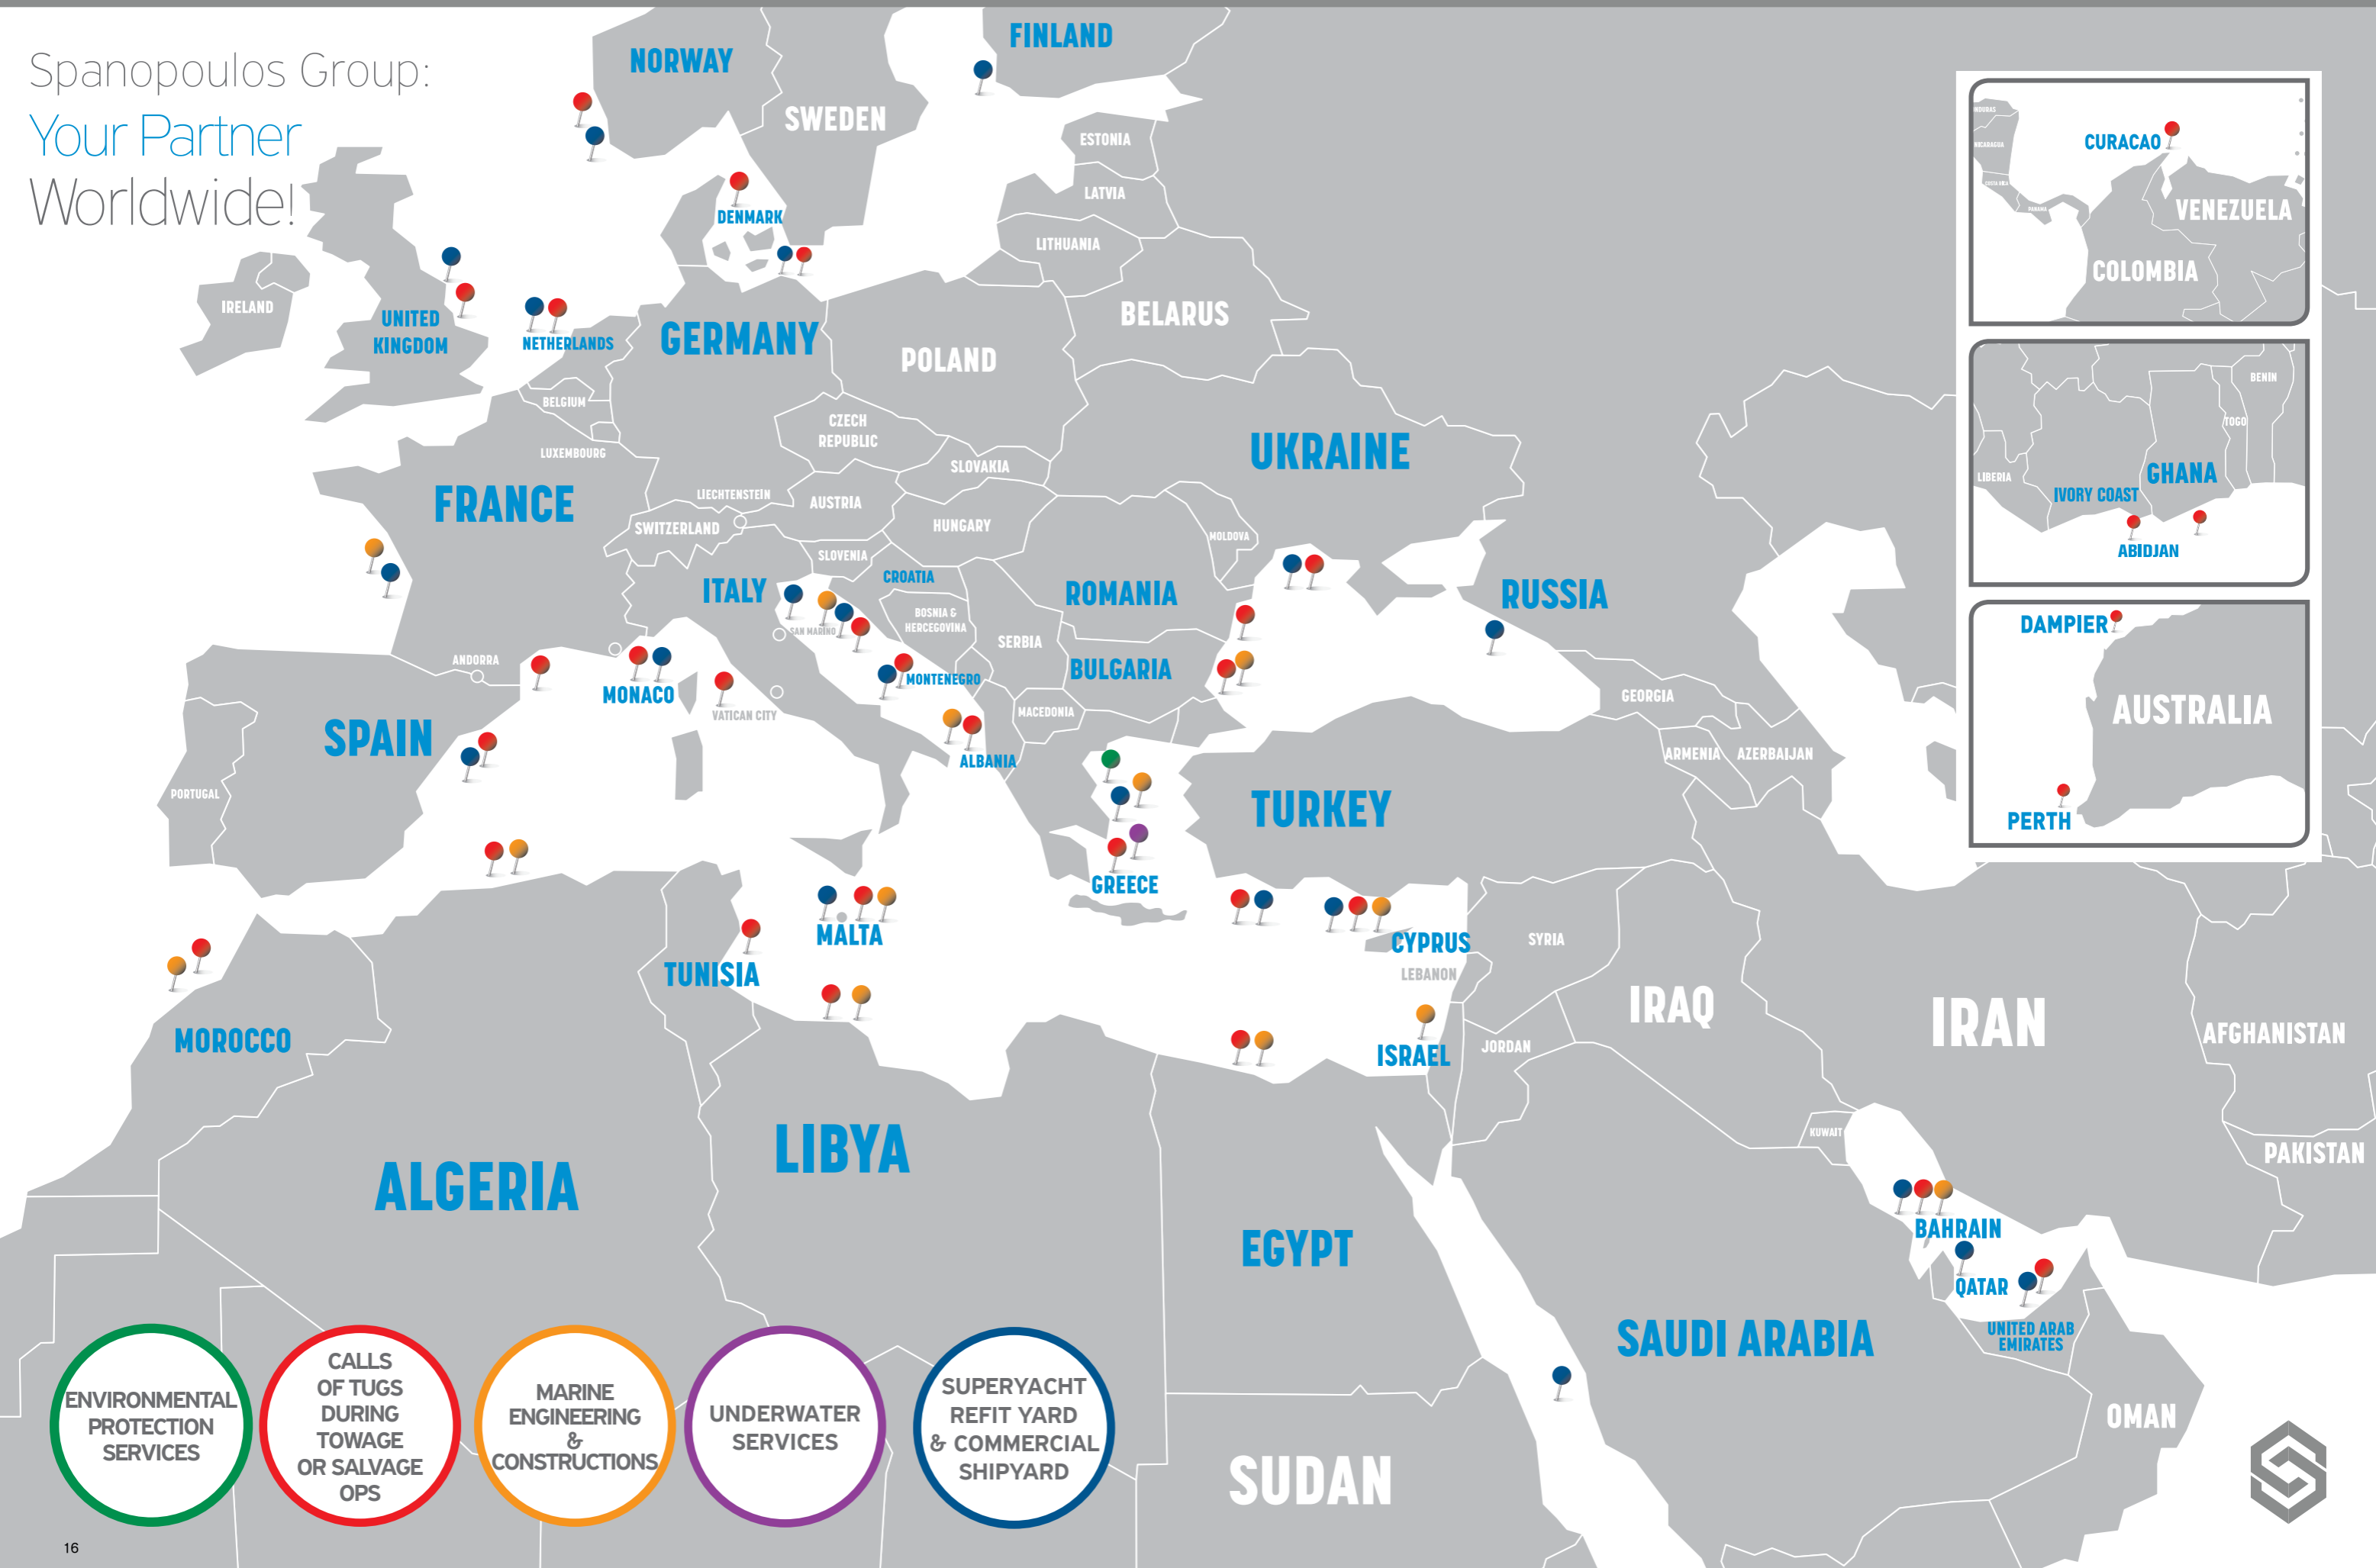

At Spanopoulos group, our people are key to our success. We continually invest in training and expertise, and our class surveyors – who ensure the quality of our work – receive on-going training. In addition, our focus on the latest technology and fully certified technical personnel has helped us achieve a leading position on the demanding yacht market.

Building for the future

- Spanopoulos group is building a third shipyard in Elefsis, Greece. The 82,000m² yard is already under construction and will be equipped with floating docks of over 200m.
- We are in the process of building a new 40m yacht, in a close collaboration between the yacht owner and our naval architects. The yacht will incorporate the latest design trends and technological developments. The project will be carried out by our design team, who are working with experts in interior design, noise and vibration, engine room layout, paint application, entertainment systems, navigation, steel and aluminum composite and construction – as well as classification societies – to turn the yacht owner's dream into reality.

““Very good co-operation and service! ””

Cpt. George Christou
M/Y AMORE MIO

““The service of the yard and operators was the best I had
in the last 10 years that I am in command of the sail yacht.
Congratulations to all for top professionalism ””

Cpt. Thrasyvoulos Papalopoulos
M/Y POLYTROPON II

““Spanopoulos shipyard is a personal choice for 2 years, 2018 to 2019.
The service is excellent, very well organized.
The personnel is highly skilled and is always willing
to offer any assistance needed.

The equipment of Spanopoulos group is excellent, capable of serving a considerable
number of yachts. I have visited many shipyards
in Perama before I ended up in Spanopoulos group, which I believe is the best.
I, personally, believe that the prospect of Spanopoulos group
is a much bigger project!!! ””
